

OUTDOOR – GAS TECHNOLOGY

# SKAB OPMÆRKSOMHED MED DEKORATIV UDENDØRSHYGGGE

Two TermaTech gas heaters are shown on a wooden deck. The heater on the left is labeled 'NICE' and the one on the right is labeled 'SKAGEN'. Both heaters have a black base and a clear glass chimney with a black top. The background shows a railing and a view of a body of water under a cloudy sky.

**NICE**

**SKAGEN**

*Skagen og den lidt mindre Nice er iøjnefaldende gasildsteder, der passer til ethvert udendørs område. De flytbare gasildsteder kan placeres hvor som helst – uanset om det er på terrassen eller foran restauranten, skaber de en elegant og hyggelig atmosfære.*
